

Family Nurse Practitioner 1

Goals

Average 17 hours per week - over 15 weeks

See 3-5 patients per clinic day

Minimum of 234 clinical hours

Beginning Student Expectations

Focus of Study:

- History/physical exam with all age groups.
- SOAP charting, coding; introduction to dictation/EHR documentation.
- Scheduled health maintenance activities with all age groups.
- Differential diagnosis and management for common conditions.
- Concurrent didactic course foci: women’s health, men’s health, sexuality, well child, ears, eyes, nose and throat (EENT), pulmonology, and the renal system.

Student Development

- Gradually take on increasing aspects of patient care.
- Much direction required from preceptor at first, but over time, preceptor learns to trust student skills, knowledge base, and competency levels.
- Less prompting required as practicum progresses.
- Begin to allow student more independence.
